These are pre made packages available to collect, containing a mixture of fruit and veg, ambient items and chilled. <i>We are still open for anyone that needs us, with the first 24 bookings being available only to those in need. In need looks different to every family, and doesn't mean you have to be on benefits. It could mean you are temporarily out of work, you've had your hours cut, or you've had a few extra bills this month that have left you short. It could also be you or a child in your family has a medical condition, or have recently finished isolating and still organising work hours. Food poverty is a very real issue within our local community and we are working hard to tackle this alongside our environmental commitments. So please, if you are in need, ensure that you comment on the first post of the evening. It will be clearly marked as usual with all of the normal booking instructions.</i>
